

# BLUE PEARL

**STONE TYPE**

Granite

**FINISH**

Polished

**ORIGIN**

Vestfold, Norway

**SIZES**

12"x12"x3/8"

3/4" (2cm slab)

1-1/4" (3cm slab)

**GEOLOGICAL ERA**
Carboniferous-Permian  
(248-360 million years ago)
**RECOMMENDED USES**
Commercial & Residential  
Interior & Exterior

Floor &amp; Wall

Backsplashes

Countertops

Fireplaces

Tub Surrounds &amp; Showers

Vanities

Blue Pearl GT is quarried in a bedrock quarry in Vestfold, Norway. It uses the most modern quarrying equipment with the ability to produce blocks even in the harsh winter months. The size and color of each block is fairly consistent between shipments. Because of the unique crystal structure that exists in this granite, it tends to have a three-dimensional appearance. During the polishing process, an epoxy resin is applied to the surface of the stone to fill in any natural pits, cracks or fissures that may exist. This does not affect the durability, maintenance or beauty of the stone. It is possible for some of the more minute pits that are too small to effectively hold the resin, to reopen during other finishing stages. However, this will not detract from the overall quality or appearance of the stone. As a natural stone product it is recommended that it be sealed to extend its longevity.

This granite is also known as Blue Opal, Labrador Blue, or Marina Pearl.

NSF indicates this product conforms to the requirements of NSF/ANSI Standard 51, thereby meeting the health and sanitation requirements for materials used in areas of food preparation.

SIZE	PIECES/BOX	SF/BOX	UNITS/PALLET	SF/PALLET
